CPL : Mampu membuat perancangan UI dengan benar sesuai prinsip UI

Anda diminta untuk membuat suatu aplikasi yang digunakan untuk membantu persona *Jane Doe* untuk memenuhi “goals” nya. Diketahui Persona sebagai berikut:

“Living a healthy and organized life is what I value the most”

ABOUT

Jane is a Professional Model who lives in New York. She has been modeling for about 10 years at different companies like GAP, Levi's, Banana Republic and Theory. It was when she was around 21 when she was contacted by the agency.

She always tries to eat healthy by keeping a fixed diet with balance between vegetables, fruits and meat. Although she doesn't have any specific dietary restrictions, she tries to stay away from fat food products, sugary drinks and salt. Jane exercises at the gym every morning as well.

GOALS

- Always stay up-to-date and follow on her dietary restrictions and schedule
- Know the exact ingredients of the food that she's purchasing at the food market
- Store quick and easy food products in her refrigerator every weekend

FRUSTRATIONS

- Not all restaurants and markets provide exact ingredients
- She has to travel outside of New York many times a year
- Sometimes, she's too busy to consume food at the right time

- a. Deskripsikan dengan singkat aplikasi yang akan Anda buat untuk membantu *Jane Doe* memenuhi kebutuhannya!

- b. Definisikan requirement yang harus ada pada aplikasi yang akan dibuat berdasarkan problem dan kebutuhan *Jane Doe*! (Minimal 3 requirement utama! **Selain halaman login**)

Problem / Kebutuhan	Kode_Req	Requirement
	REQ-01	
	REQ-02	

	REQ-03	
--	--------	--

- c. Berdasarkan requirement yang telah Anda definisikan pada soal di atas, buatlah minimal 1 desain UI untuk 1 requirement!

Kode_req	Desain UI
REQ-01	(UI-1)
REQ-02	(UI-2)

REQ-03	(UI-3)
--------	--------

d. Buatlah salah satu assistance/guidance yang tepat untuk membantu *Jane Doe* dalam penggunaan aplikasi dan jelaskan analisisnya!

Desain Assitance/Guide	Analisis/justifikasi

=====Selamat Mengerjakan=====
