

About

My name is Beta Kurnia with more than 2 year experience in industry. I describe myself as a very passionate developer who loves coding, continuous learning especially when it comes to website and mobile technology, and I can work in caffeine as well. I've spent most of my free time watching udemy course to develop my technical knowledge and keep up to date with latest technology as website developer. I'm working with a lot of technology such as ReactJS, NodeJS, NextJS MongoDB, MySQL and many more.
